## EXPLANATION

The University bulletins are so numbered that the first two digits of the number show the year of issue, the last two the position in the yearly series. For example, 3101 is the first bulletin of the year 1931. These comprise the official publications of the University, publications on humanistic and scientific subjects, and bulletins prepared from time to time by various divisions of the University.

The omission of a number from its place in the consecutive order indicates that the number has not been used. The following serial numbers have not been used:

In the 1931 series:

3137	3142	3144	3147
3140	3143	3146	3148

In the 1932 series:

3202	3221	3237	3244
3209	3222	3238	3245
3213	3230	3240	3246
3214	3234	3242	3247
3215	3236	3243	

The following bureaus and divisions distribute bulletins issued by them; communications concerning bulletins in these fields should be addressed to The University of Texas, Austin, Texas, care of the bureau or division issuing the bulletin: Bureau of Business Research, Bureau of Economic Geology, Bureau of Engineering Research, Interscholastic League Bureau, and Division of Extension. Communications concerning all other publications of the University should be addressed to University Publications, The University of Texas, Austin, Texas.

Bulletins are free unless a sales price is listed. The amount of the sales price should be enclosed with the order, since bulletins are not sent on account.
